About

Hi, I'm Monil — a first-year B.Tech CS student at VIT Bhopal, currently focused on building a strong foundation in Data Structures & Algorithms through C++.

I'm at the early stages of my competitive programming journey and use Stack Overflow primarily as a learner — to understand concepts deeply, debug tricky errors, and pick up best practices from experienced developers.

My current areas of focus:

- C++ fundamentals and STL
- DSA problem solving (arrays, strings, recursion, sorting)
- Competitive programming (just getting started!)

I believe in understanding the "why" behind every solution, not just copying the answer. If you see me asking a question, I've already tried to solve it myself first.

Always learning. Always improving.

About

I'm a B.Tech Computer Science student at VIT Bhopal, passionate about building a strong foundation in core computer science principles. I'm dedicated to honing my skills and applying them to real-world challenges.

Academics: B.Tech in Computer Science at VIT Bhopal

Key Skills: Core Computer Science principles, problem-solving, and a keen interest in new technologies.

Language Skills: Fluent in Hindi and English, currently learning French.

Goals: Actively seeking research opportunities and internships to apply my skills and contribute to impactful projects.

I'm eager to connect with professionals and peers to discuss technology, learn from their experiences, and explore collaborative opportunities.
